

## Sección 2: Web Personal - Proyecto Básico

12 de abril de 2025

### Abstract

## 1 Video 24: Solucion. Adapta los demas templates.

1. Copiamos el template de "home.html"

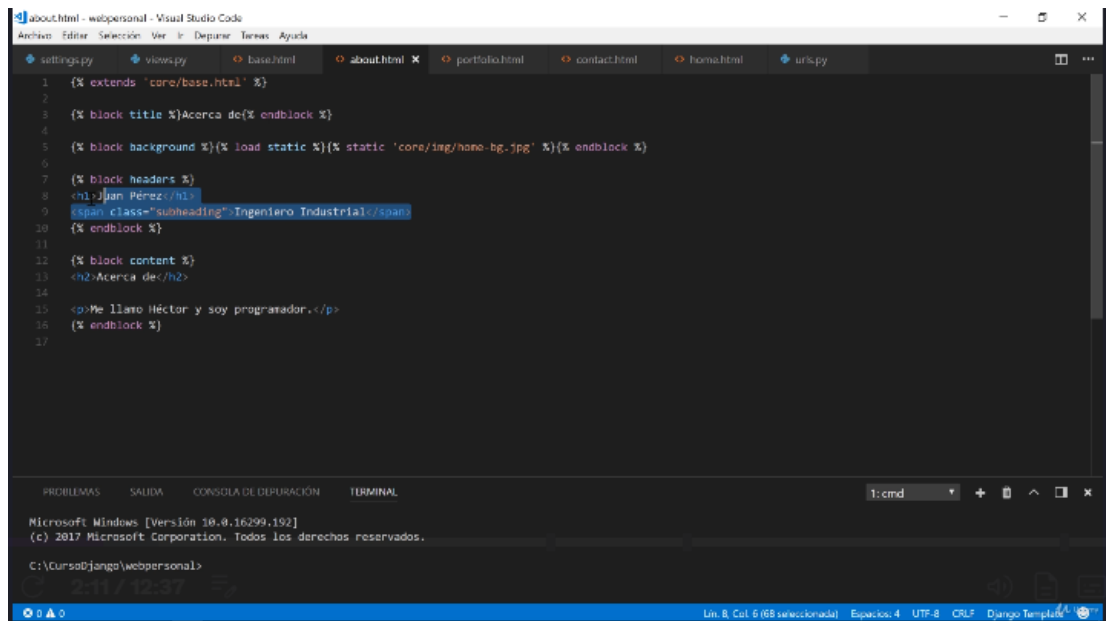

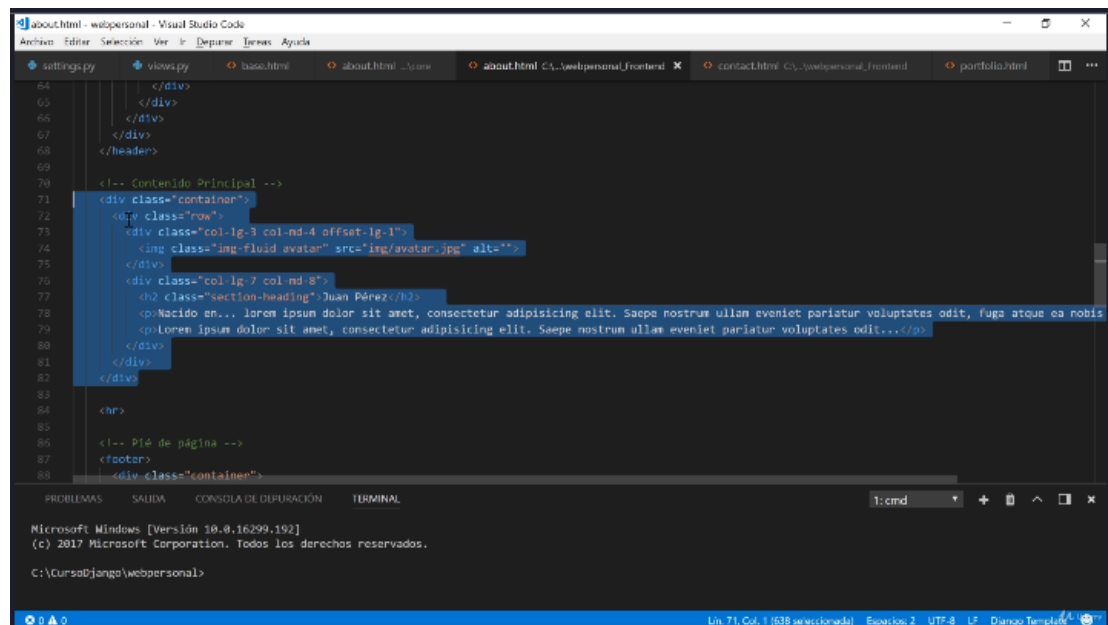

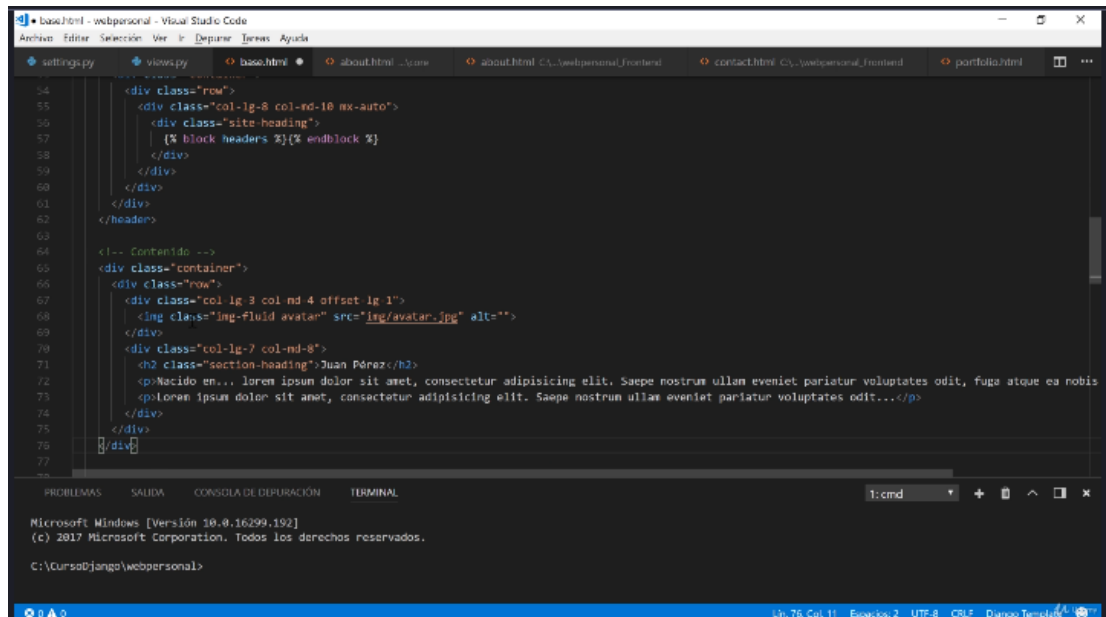

Figure 1: Lo pegamos en "about.html", y lo mezclamos con lo que tenía. A continuación, abrimos los ficheros del Frontend, y seleccionamos el fichero "about.html", para ver lo que tenemos que cambiar.

A screenshot of the Visual Studio Code editor interface. The top bar shows the file name 'about.html - webpersonal - Visual Studio Code'. The menu bar includes 'Archivo', 'Editar', 'Selección', 'Ver', 'Depurar', 'Temas', and 'Ayuda'. The Explorer sidebar on the left shows a project structure with files like 'settings.py', 'views.py', 'base.html', 'about.html', 'contact.html', and 'portfolio.html'. The main editor area displays the content of 'about.html', which is an HTML template. It includes a header section, a main content area with a container, a row of two columns (one for an image and one for text), and a footer section. The code is written in HTML with Bootstrap classes. The bottom status bar shows 'Ln 71, Col 1 (538 seleccionada)', 'Español', 'UTF-8', 'LF', and 'Django Template'.

67 <div class="col-lg-3 col-md-4 offset-lg-1">
68 
69 </div>
70 <div class="col-lg-7 col-md-8">
71 <div class="section-heading">Juan Pérez</div>
72 <p>Mezcla en... Lorem ipsum dolor sit amet, consectetur adipiscing elit. Saepe nostrum ullam eveniet pariatur voluptates odit, fuge atque ea nobis</p>
73 <p>Lorem ipsum dolor sit amet, consectetur adipiscing elit. Saepe nostrum ullam eveniet pariatur voluptates odit...</p>
74 </div>
75 </div>
76 </div>
77 </div>
```

Figure 4: Quitamos alguna parte interior, de lo que pegamos, en "base.html"

The screenshot shows the Visual Studio Code editor with the 'about.html' file open. The file contains a Django template with the following code:

```
1 {% extends 'core/base.html' %}
2
3 {% block title %}Acerca de{% endblock %}
4
5 {% block background %}{% load static %}{% static 'core/img/about-bg.jpg' %}{% endblock %}
6
7 {% block headers %}
8 <h1>Acerca de</h1>
9 <span class="subheading">Biografía</span>
10 {% endblock %}
11
12 {% block content %}
13 <div class="col-lg-3 col-md-4 offset-lg-1">
14 
15 </div>
16 <div class="col-lg-7 col-md-8">
17 <h2 class="section-heading">Juan Pérez</h2>
18 <p>Nacido en... lorem ipsum dolor sit amet, consectetur adipiscing elit. Saepe nostrum ullam eveniet pariatur voluptates edit, fuga atque ea nobis sit sc<
19 <p>lorem ipsum dolor sit amet, consectetur adipiscing elit. Saepe nostrum ullam eveniet pariatur voluptates edit....</p>
20 </div>
21 {% endblock %}
22
```

The bottom of the image shows the Windows command prompt with the path 'C:\cursos\jango\webpersonal>'.

Figure 7: Lo pegamos, en "about.html, de la plantilla"

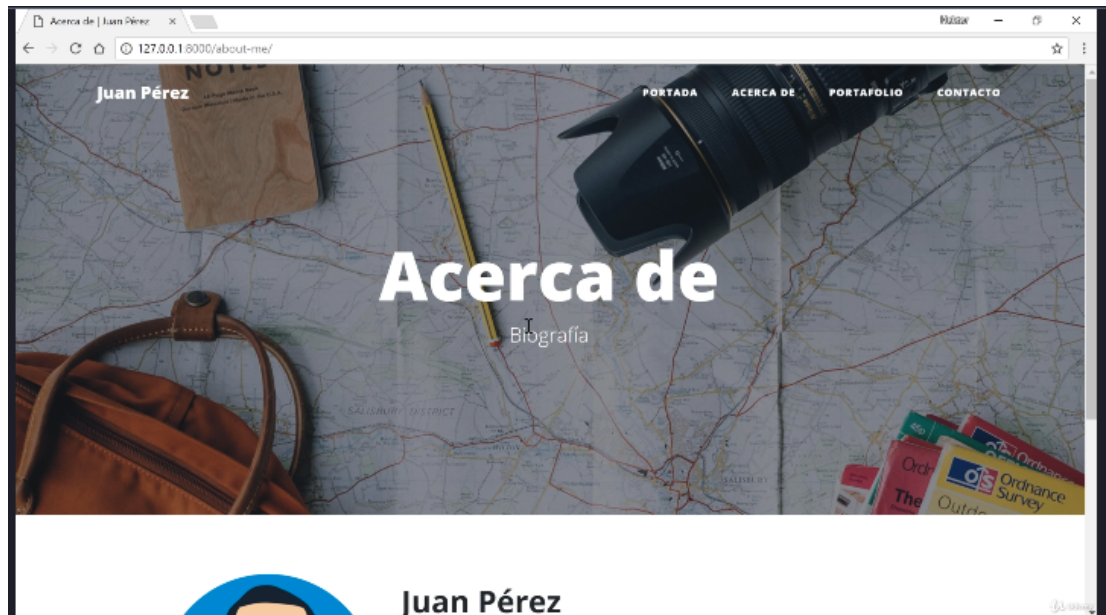

Figure 8: Vemos que funciona la plantilla, en la web

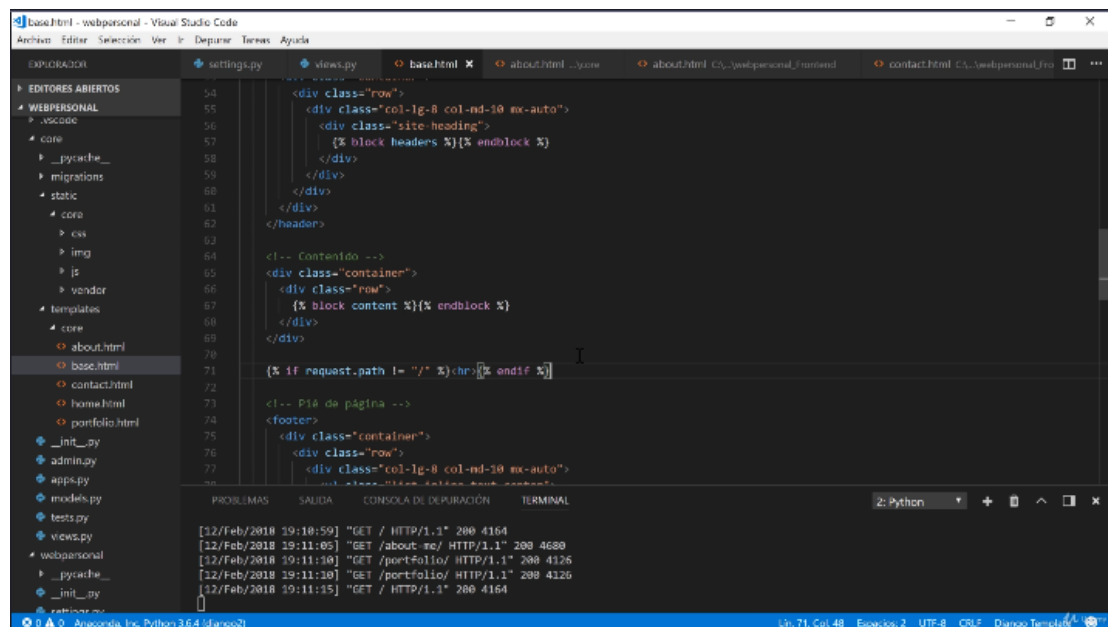

Figure 9: Anadimos a "base.html" para que en ciertas plantillas, aparezca una linea horizontal

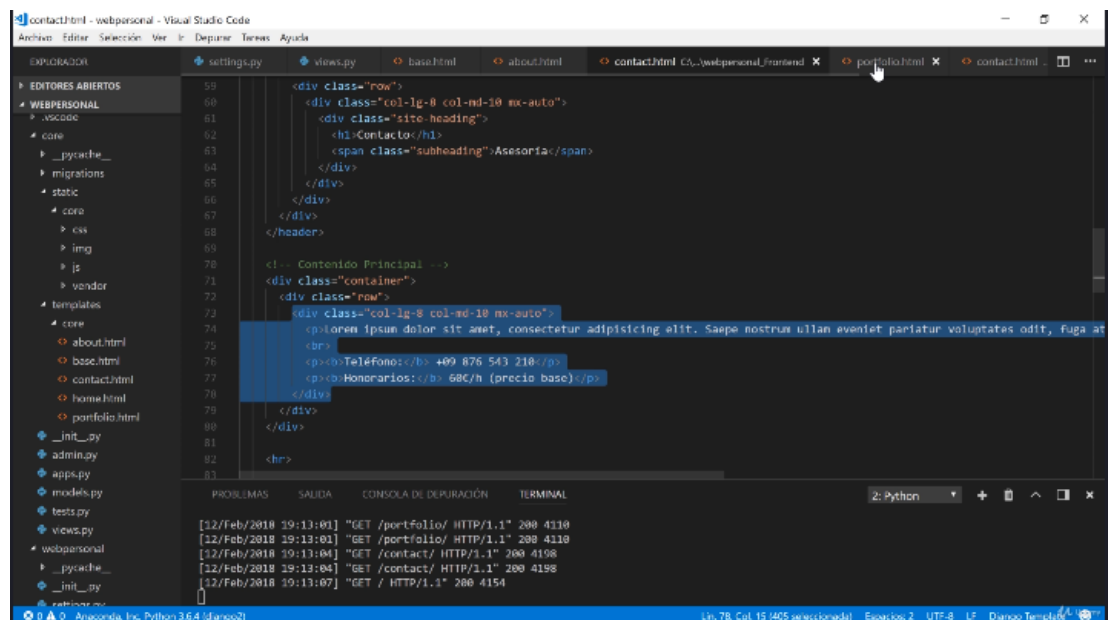

Figure 10: Copiamos de "contact.html", del Frontend

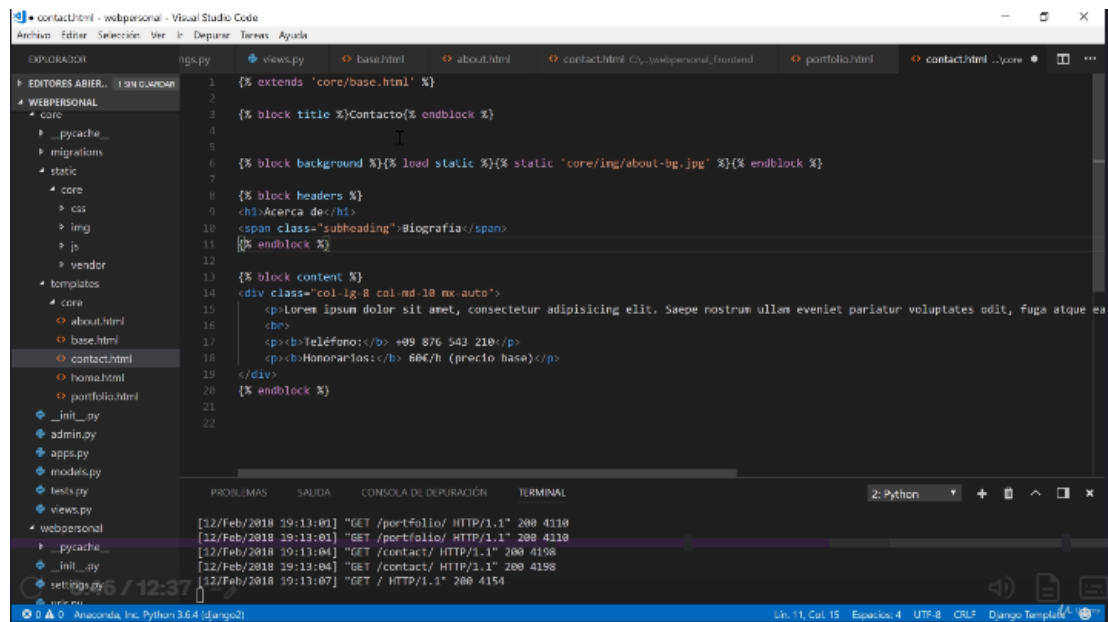

Figure 11: Pegamos en "contact.html", de la plantilla. También copiamos de "about.html", y le pegamos un trozo, y más cosas ...
